DR. BRIGGS ON TRIAL

The Case Presented to the General Assembly.

BRIGGS DEFENDING HIMSELF.

Thirteen Hours and a Half Will End the Trial and a Vote Will Be Taken—Doings of the General Assembly—A Movement Toward Starting a New Theology.

WASHINGTON, May 30.—After the minutes of the last meeting had been approved in the Presbyterian general assembly Dr. Herrick Johnson, chairman of the committee on Columbian world's fair exhibits stated that the committee in view of the resolution of the assembly was in a paralyzed condition. If the exhibit was to be removed from the grounds as indicated by the assembly, the committee must be backed by the financial responsibility of the body. To remove the exhibit and return the subscriptions to the fund for installation would require about \$2,500. There was \$1,525 on hand. After some discussion it was voted to refer the matter to the committee on finance, with power to act.

Dr. Young, chairman of the committee on bills and overtures, reported upon a number referred to that committee. Answers to the most important were to the effect:

1. That, inasmuch as the presbyteries voted against the overture on vacancy and supply, sent down by the general assembly of 1892, it deemed it important at this time to overture the presbyteries again on that subject.

2. That the synod of Utah be erected, with Rex R. G. McNice as temporary moderator, and the synod of Montana be erected, with Rev. Andrew Wormiser as temporary moderator.

These recommendations were adopted. A memorial of 365 officers and members, giving an interpretation of the deliverance of the assembly of 1892 upon the inspiration of the Bible, was reported by Dr. Young, with the recommendation that it be considered answered by the report of the committee, made Saturday afternoon. It was so ordered.

The closest attention was given Dr. Baker, chairman of the judicial committee, when he rose from his place on the platform to make the report of the committee as to the disposition of time in the Briggs trial. The arrangement, he said, was entirely agreeable to both sides.

Four and a half hours were allowed the appellants to open and close their case. Dr. Briggs was allowed seven hours to reply and the New York presbytery, from whose judgment the appeal was taken, were assigned two hours, to be used in 10-minute speeches.

It was just 10:05 o'clock when Colonel McCook took the stand, and the great trial might be fairly said to have begun.

Colonel McCook was then followed by Dr. Lampe who presented the appellants' opening argument.

Professor Briggs then began his defense. In the course of his presentation of the defense, Dr. Briggs said he had been accused of teaching that many of the Old Testament predictions had been reversed by history and that the great body of the Messianic predictions had not been, and would not be fulfilled, which was contrary to the essential doctrine of Holy Scripture and of the standards of the church, that God is true, omniscient and unchangeable. This he had repudiated and wanted the assembly to hear exactly what he had said, but which the committee on prosecution had omitted. He had said this: "Kuenen had shown that if we insist upon the fulfillment of the details of the prophecy of the Old Testament, many of the predictions had been reversed by history, and the great body of the Messianic predictions had not only never been fulfilled, but cannot now be fulfilled for the reason that its own time has passed for ever."

All depended on the word "if," which the committee had omitted. He had disclaimed this charge before and disclaimed it now. He also disclaimed that he was guilty of teaching that the process of redemption extended to the world to come in the case of many who died in sin.

The dreadful doctrines of race redemption had been attributed to him, but all he had said thereon is connected with the incarnation of Jesus Christ. "I would that I could teach such a comfortable doctrine; and if the time ever comes that I can, I will gladly lay down my ministry in the Presbyterian church and go forth to teach the hope of salvation of some of these who apparently have died without regeneration in this world. But I do not hold that belief now. I can not."

Dr. Briggs devoted a considerable part of his time in his address to a defense of the action of the presbytery. He declared against matter of record in the defendant's support being rejected while evidence introduced by the prosecution received favor. The doctor also considered the logic of the case.

He declared that he had not said in his inaugural nor in any of his writings that he co-ordinated the Bible, the church and the reason; nor could it rightly be inferred that he did so.

NEW CHURCH PROSPECTS.

Dr. Briggs Wants to Raise the Banner of a New Theology.

CINCINNATI, May 30.—It is learned from authentic sources that Professor Briggs, now on trial at Washington on the charge of heresy, has been corresponding with E. D. Morris of Lane seminary concerning the best method of forming a new church. Briggs

wants to raise the banner of a new theology.

Professor Morris has replied to Briggs' letter, attempting to discourage the scheme. He told Briggs that very few Presbyterian ministers would desert to a new standard.

The movement has not been squelched, however, as it is known that four well known liberal Presbyterians of Cincinnati have gone to Washington with the avowed intention of assisting Briggs' new church project.

CYCLONE IN GEORGIA.

Several Places Visited and Great Destruction Done.

COLUMBUS, Ga., May 30.—A severe cyclone struck South Upstate, demolishing the roof of a railroad bridge. Several houses on the Pope plantation were destroyed, burying the occupants in the ruins, but all miraculously escaped unhurt. The destruction on this plantation was considerable.

Box Springs had a big scare, the cyclone skirting the edge of the town.

A number of houses at Juniper were destroyed.

At Chandler's Mill a house was blown down and George Parker's wife and daughter were buried in the ruins and supposed to be fatally injured. Particulars are meagre.

Reports from points east of Athens state that a severe cyclone storm swept that region and many houses were blown down.

At Gillsville James Kinsley was killed and his wife badly injured.

In Banks county George Dowdy was killed.

Elevator Accident.

CLEVELAND, May 30.—The fine Wade building was the scene of a terrible accident. Janitor A. P. Fairbanks was caught between the elevator frames and the brick walls of the well in some manner and crushed to death. William Gans, a young man helping Fairbanks, had his hand broken, and was removed to the hospital. Fairbanks had been employed in the building ever since its erection, and was highly esteemed by the business men. His body was so wedged in that it was necessary to break down a door into Broker Hilland's office to extricate it.

Three Children Burned to Death.

CANONSBURG, Pa., May 30.—About 4 o'clock in the morning the dwelling of Samuel Skiles, who resides in Chartiers township, was discovered to be on fire by oilwell diggers, who were passing along. The men rushed to the house and broke down the door, just in time to rescue Mr. and Mrs. Skiles and three of their six children. Three of the smaller children could not be rescued, and they perished in the flames. Mr. and Mrs. Skiles were badly burned about the face and hands. The fire originated from an over-heated gas stove.

Two North Dakota Banks Closed.

FARGO, N. D., May 30.—The bank of E. Ashley Mears has been closed by the national bank examiner under orders from the comptroller of the currency. The First National bank of Fargo, N. D., was also closed. The examiner would give out no statement, but Cashier Mears said the indebtedness does not exceed \$80,000, with assets five times that amount. The bank was called the National Bank of North Dakota, and was mainly a clearance house for the system of banks owned by Mears and his system of loan agencies. It had but few depositors in Fargo. No other Fargo bank is affected.

Died in Despair.

CHICAGO, May 30.—An inquest was held on the body of F. H. Milburn, the son of N. H. Milburn, the blind chaplain of the United States senate, who killed himself at the Saratoga hotel. The testimony brought out the fact very clearly that the young man committed suicide because he had despaired of being able to conquer his appetite for liquor and had concluded to end the fight. Chaplain Milburn, who is at Jacksonville, Ill., telegraphed that the remains be sent to him there for burial.

Took Morphine With Suicidal Intent.

ANDERSON, Ind., May 30.—The wife of George Crawford, a stonemason, is in a dying condition from the effects of morphine taken with suicidal intent. Mrs. Crawford had learned that her husband was paying attention to another woman. When accused he acknowledged the fact.

Assassinated on the Highway.

LITTLE ROCK, May 30.—Corral Griffin of Guernsey and Hemstead county was assassinated yesterday. He had been recently appointed postmaster of Guernsey and went to Hope to make his bond. While returning home he was shot from ambush.

Attempted Wholesale Poisoning.

CHILLICOTHE, O., May 30.—A number of the boarders in Mrs. William Snyder's house here was poisoned by arsenic which some outsider had placed in their coffee during the night. They will all recover.

Boy Killed.

LONDON, O., May 30.—Frank, the 15-year-old son of Ed Holland of this city, was killed while riding on a westbound freight. In jumping off he jumped into a cattle guard.

Planing Mill Burned.

NEW BEDFORD, Mass., May 30.—The planing mill of W. H. Washburn and two adjoining buildings were destroyed by fire. Total loss \$65,000; insured.

Mrs. Harrison Dead.

NORTH BEND, O., May 30.—Mrs. Mary Harrison, an aunt of ex-President Harrison, aged 78, died at the residence of Colonel McClung.

A Juvenile Heavyweight.

LOUISVILLE, May 30.—Eddie Thompson, 2 1/2 years old, weighs 95 pounds. At 6 months he weighed 48 pounds.

FIFTH WEEK BEGUN.

World's Fair Attendance Daily Increasing.

SUNDAY CLOSING ENJOINED.

Judge Stein Holds That Congress Made No Law Compelling the Fair to Close on the Sabbath—The French Exhibit Thrown Open—Other Events at the White City.

CHICAGO, May 30.—Cathedral bells pealed out from the towers of machinery hall, ringing in the fifth week of the exposition. An ideal summer day brought out a multitude of people and augured well for the week's financial showing.

France's Exhibit Opened.

France's commanding and artistic pavilion in liberal arts building was opened to the public, and the wealth of the exhibit attracted the attention of the thousands who passed through the building during the day. The French exhibit is probably the costliest of any at the fair, the sculptured and painted entrance front capped by a grand arch costing a fortune by itself.

IN THE ART GALLERY.

The tri-color of the republic waved from every section of the pavilion and the French commissioners were on hand to welcome any official visitors. The installation will not be complete for several days but it is sufficiently advanced to throw open. The exhibits have crowded every inch of space and the same area in the gallery has been allotted to a variety of exhibits. In bronze and furniture the exhibit is not excelled by any nation at the fair. There was no ceremony attending the opening.

Sunday Closing Enjoined.

Judge Stein yesterday issued a temporary injunction restraining the exposition directory from closing the world's fair on Sundays. The decision was made in accordance with a bill filed some weeks ago by Charles W. Clingman of Chicago, in behalf of himself as a stockholder in the exposition company and as a citizen. The proceedings were in the state courts and were entirely distinct from the more recent case in the federal courts to which the United States government is a party. Judge Stein held that congress had made no law compelling Sunday closing.

Immediately after the reading of the decision, Attorney Edwin Walker gave notice that the defendants would file their answer in the course of 10 days, after which arguments will be heard and a final decision rendered later.

Physicians and Surgeons.

The woman's congress and the congress of the world's press have passed into history, and yesterday the third of the series of great international gatherings opened in the Lake Front art palace. It is that of the physicians and surgeons of the world, or rather of two of the schools of that great fraternity, the homeopathic and the eclectic.

Difficulty has been experienced in combining what is known as the "regular" profession in this congress, from the fact that over two years ago an international congress was arranged for at Rome during the present summer, and very few of the eminent foreign members of the fraternity were able to find time to travel to Chicago, and afterward find their way to Rome.

Hence for the present the new school of medicine has the field to itself, although it is probable that later in the year the followers of the old school may find it practicable to have a Chicago congress of their own. It is, however, the opportunity of the leaders of the new school, and that they have made the most of it is evidenced by the fact that the registers of more than a score of the principal hotels are filled for pages in succession with the names of delegates from nearly every state in the Union and from many distant countries.

Musie of the Day.

Theodore Thomas put in appearance at festival hall, and it was understood that he would direct the free concert at noon, but he was still feeling badly and decided not to try it. The concert was late in starting, Mr. Bendix directing.

The open air concerts began about half-past 11, and were continued throughout the day by the Cincinnati, Chicago and Sousa's bands. The attendance was good.

Another Levee Gives Way.

ARKANSAS CITY, Ark., May 30.—A crevasse has occurred on the levee in the Mississippi river 14 miles above this city. The gap is now 200 feet wide and 14 deep and is rapidly enlarging. The water is pouring through in a huge volume and although a large force of men are hard at work in an attempt to fill it with sacks of dirt it is feared their efforts will prove unavailing and great destruction will follow.

EXPORTS OF GOLD.

Sixty Million Dollars Shipped Abroad Within Five Months.

WASHINGTON, May 30.—Since Jan. 1 \$60,000,000 in gold has been exported to Europe and the export movement instead of having abated seems to have received a fresh impetus. Most of this gold was taken from the United States treasury, and practically all that is now being exported comes from the same source.

In that time the treasury department has sustained a net loss of \$25,354,143, the net total gold in the treasury on Jan. 1, 1893, having been \$121,266,663, while today it is only \$95,912,419. The gold holdings within the five months of this year have at times fluctuated, but since the 1st of May the gold has been nearly always below the limit of the so-called gold reserve of \$100,000,000.

As soon as the reserve was built up a large shipment abroad would pull it down, and when from natural causes or from unusual exertions on part of the administration to keep it intact, it grew again, another onslaught would decrease it. It is today invaded to the extent of more than \$4,000,000, and advices received from New York show that with the gold engaged for shipment on Wednesday—\$8,200,000—the total net gold remaining in the treasury will be about \$93,000,000, the lowest figure reached since the resumption of specie payment.

In addition to this large engagement there is reported current here from sources usually well founded that more gold will go out next Saturday, sufficient, it is said, to reduce the gold holdings to \$90,000,000.

Despite these heavy shipments treasury officials express the greatest confidence in the ability of the treasury to restore the gold balance. They point to the fact that there is a gradual and beautiful influence from natural causes to the treasury, which is only temporarily checked by the large amounts taken for export.

Had such not been the case the export of \$60,000,000 since the first of the year would have left the net total gold in the treasury at \$60,000,000 instead of which it is, as stated today, \$95,912,419. A cessation of gold exports in large amounts is looked for by July 1, as it is understood that the Austrian demand is well supplied.

A peculiar and encouraging feature of the decrease of gold is that a corresponding increase is shown in the net treasury balance. That balance today is \$25,397,893, or nearly a million dollars greater than it was on March 7, when Secretary Carlisle took official charge of the treasury department. Of this money \$11,340,000 is in subsidiary coin, and \$11,650,000 in national bank depositaries. Both of these items are slightly in excess of what they were on March 7.

DAVIS' FUNERAL CORTEGE.

Train Bearing the Remains Goes From Montgomery to Atlanta.

ATLANTA, May 30.—Governor Jones and staff accompanied the Davis funeral cortege from Montgomery to the Alabama state line. As the train drew out the infantry saluted and the cannon fired.

At Chelsea there was a slight stop. Every head was uncovered and ladies were allowed to pass through the funeral car. A few miles further about 100 men were drawn up in line with shotguns and rifles, and the moment the funeral car passed them a rattling file fire cracked down the line.

At Opelika fully 1,500 people clustered about the car. A heart of roses and a floral shield from the ladies and from Confederate veterans of Lee county, Ala., were put on board.

At all stations along the route floral tributes from ladies and children and respectful salutes from bareheaded veterans marked the run of the funeral car.

At LaGrange a solid wall of ladies and children lined the road for about 250 yards. Back of them stood the men in line. To the left of these stood another long row of about 200 young girls dressed in gray homespun jackets and skirts with military caps and red and white ribbons on their breasts. Beyond them again, a large factory had turned out its operatives and men and women bared their heads.

One of Mr. Davis' body servants is on the train.

At West Point, Governor Northen of Georgia and his staff boarded the train which reached Atlanta shortly after 4:30 o'clock.

PASSENGER TRAIN WRECKED.

A Blind Horse Causes a Disaster on the Monon Railroad.

INDIANAPOLIS, May 30.—A blind horse caused a disaster on the Louisville, New Albany and Chicago railroad. Vestibuled passenger train No. 36, from Cincinnati to Chicago, struck the horse in a culvert at Broad Ripple, nine miles from Indianapolis.

The engine was thrown from the track, rolled 50 yards, and landed in a gravel pit. Engineer George T. Plank of this city was killed, and Fireman Williams was injured. The baggage-car was entirely destroyed. Two day coaches and one sleeper were dragged from the track and damaged, but the other four sleepers held to the track. Many passengers were rudely disturbed, but escaped serious injury.

Six Miners Seriously Burned.

TREMONT, Pa., May 30.—Through the carelessness of one of their number six miners employed at Middle Creek colliery of the Reading company were most seriously burned by an explosion of gas. The names of the unfortunate men are Charles Maurer, John Seager, Frank Huth, William Boltz, William Bretzius and William Erdman. The injuries of the first four are fatal. The explosion was caused by one of the men carrying a naked lamp.

MYSTERIOUS CRIME.

An Entire Family of Four Found Dead.

THROATS CUT FROM EAR TO EAR

The Supposition Is That the Husband and Father Murdered His Wife and Children and Then Committed Suicide. The Affair Shrouded in Mystery.

CONNELLSVILLE, Pa., May 30.—Particulars of a horrible tragedy at New Haven, across the river from this city, have just reached here. John Hoy, his wife Mollie, his son William and daughter were found at 3 o'clock in the afternoon with their throats cut from ear to ear. The supposition is that Hoy murdered his wife and children and then committed suicide. The evidence points strongly towards this conclusion, but there are reasons to believe the family might have been murdered.

The bodies were discovered by Mrs. Mary Egan, Hoy's mother by a former husband, who visited Hoy's home. When she entered the house she was horrified to see large pools of blood on the floor. She rushed through the house and upstairs to the bedroom of her son and wife. The sight that met her gaze was terrible. Stretched on the bed was Mrs. Hoy and at the foot of it on the floor was Hoy cold in death. Both had their throats cut from ear to ear. Mrs. Egan ran from the house screaming. A short distance away she fainted and was carried into a neighbor's house.

After the alarm was given hundreds of people flocked to the scene of the tragedy. The doors were barred, however, and no one was admitted until 6:30 in the evening when Coroner Patton and jury viewed the bodies. The first room visited by the coroner was that of Hoy and his wife. Mrs. Hoy's throat had been cut from ear to ear with a razor. At the foot of the bed was Hoy with a large gaping wound across the throat, his head lying in a pool of blood. On a stand near by was a bloody razor. In a room back of their parents lay William Hoy, aged 8, and his sister Portia, aged 6, neatly tucked under the bedclothes, both their throats cut from ear to ear. Behind the right ear of the girl was a wound from the blunt end of a hatchet that was found in her father's room. The jury seemed to be convinced that Hoy committed the horrible butchery. Coroner Patton adjourned the inquest until Saturday.

The mysterious part of the tragedy is the splashes of blood scattered all through the house.

Mrs. Hoy was an attractive woman, 28 years of age. Hoy was 35 years old, and until six weeks ago was a trusted conductor on the Baltimore and Ohio railroad. At that time he was suspended for getting drunk at Cumberland and has not worked since.

Officer Aiken, it has just been learned, saw a man hurriedly leave Hoy's house in the afternoon and chased the fellow several miles, but was unable to capture him. This statement makes the tragedy very mysterious. Much excitement prevails in New Haven.

FAST TIME.

Less Than Twenty Hours Between New York and Chicago.

CHICAGO, May 30.—The first "Exposition Flyer," 20 hours from New York, steamed into the Van Buren street station of the Lake Shore and Michigan Southern road just two minutes and 16 seconds before the time scheduled for it to make its appearance there. The train was ahead of the timetable at all stopping places between Buffalo and Chicago, although no special effort was required to keep up the rate of speed maintained and several minutes were lost at each station waiting for the appointed starting time to arrive.

The two fastest spurts of speed made during the trip were 83 and a fraction miles an hour, and 10 1/5 miles in six minutes and three and three quarters seconds. The first of these was made between Stuyvesant and Castleton, N. Y. The second was when the train approached Chicago a little east of South Chicago. As a whole the trip was without excitement or unusual incidents of any kind.

Recovered From the Waters.

CUYAHOGA FALLS, O., May 30.—Three weeks ago Gustave H. Schuler and Martha Kline, while driving, went through the Cuyahoga bridge, which was undergoing repairs, and were drowned in the river, 100 feet below. Their bodies were not found and search was abandoned. Sunday morning, four miles below where the terrible accident occurred, a fisherman discovered the nude body of Miss Kline lying in a pool. Portions of Schuler's clothing were also found. The young couple were to have been married shortly.

Young Girl's Body Found.

HUDSON, N. Y., May 30.—Yesterday afternoon the body of an unknown young woman was discovered floating in Mud creek, about two miles from this city. An autopsy revealed the fact that the girl was not more than 18 or 20 years of age and had been brutally murdered and that the crime was perpetrated about eight or 10 days ago. The only clue that may lead to her identity is a card found in her pocket bearing the name of Fannie A. Wycoffs.

WEATHER INDICATIONS.

Get a fairly fair weather; slightly warmer; southwest winds.

"The World's Fair belongs to the people," exclaims the Newport Journal in an editorial on Sunday opening. When did you join the Anarchists, Brother Blakeley? Your utterances on this subject are no credit to you.

The Cincinnati crowd of sports who imagined they would run up to Ashland and Huntington and spend the day as they pleased were handled just right by the authorities of both places. The "toughs" were given to understand that they would be landed in jail if they gave any races.

A CITIZEN of Wilmington, O., inserted an advertisement in two Chicago papers on Sunday, May 21, asking for terms of board for himself and wife for a month during the Exposition. He now has the choice of about 1,500 boarding houses, fully that many replies having been received. Who says it doesn't pay to advertise?

ONE little ruling of Secretary Hoke Smith it is thought will reduce the pension payments between \$15,000,000 and \$20,000,000 annually. The ruling revokes the order of Messrs. Raum and Bussey, concerning "disability not of service origin," so as to limit pensions to disabilities preventing the applicant from earning support by manual labor. What's wrong or unjust about such a ruling?

"It is only just to myself," remarked ex-Governor Foster Friday, "to say that two things have caused my downfall; one was neglect of business, occasioned by my devotion to politics, and the other an over-zealous desire to build up Fosteria." This gives a quietus to those Republican calamity-howlers who were no doubt ready to charge Mr. Foster's misfortunes to the Democratic administration.

IN four months this year this country has bought from foreigners nearly \$100,000,000 more goods than we have sold them. This accounts for much of the gold that has been shipped across the water. The goods have to be paid for. Wouldn't it be a good idea to exchange some of our surplus crops for these goods, and keep our gold at home? Mr. McKinley ought to revise the reciprocity clause in his bill. He hasn't succeeded in shutting out foreign goods.

THE Lexington police haven't yet got their clutches on any of the thieves who have been looting that city of late, but they have shot another innocent citizen. In this case they were probably excusable. They mistook a butcher, who was on his way to market at an early hour, for a burglar. When they called to him to halt, the butcher imagined they were robbers and were after him and a lively chase ensued. They finally "winged" him, and then explanations followed all around. While the police were chasing the butcher, the real, sure-enough burglars were going through a residence. Great are the Lexington police.

KENTUCKY TOBACCO CROP.

It Was Larger Last Year Than in 1891.
Output of Mason and Surrounding Counties.

Reports returned by 101 counties in this State show that 157,609,939 pounds of tobacco was grown by them last year, an increase of \$855,851 over the previous season's crop. The eighteen counties which have not reported, it is thought will bring up the aggregate to 191,624,283 pounds, against 183,038,432 for 1891.

In Mason County the crop was 4,899,650 pounds, as compared with 5,697,300 pounds in 1891. Bracken County produced 3,990,260 pounds last year and 4,742,550 pounds the year before. Robertson's crop in 1891 amounted to 1,239,000 pounds; last year it was a little larger, amounting to 1,438,475 pounds. Lewis County's crop was about 200,000 pounds larger last year than the year before, amounting to 1,205,800 pounds in 1892.

Fleming County's crop last year has not been reported. It was 3,427,312 pounds in 1891.

NEWS FROM FRANKFORT.

Doings of the General Assembly—Corporations Courting Heavy Fines.

In the House yesterday Representative Pettit, of Daviess, introduced a bill to empower County Courts to authorize the drainage of lands where the same shall be conducive to public health, convenience or welfare of the inhabitants.

An act amending the act relating to revenue and taxation, prescribing the duties of peace officers in making arrests, and fixing a penalty for failure of their duties, was reported enrolled and signed by the Speaker.

The House bill permitting medical colleges to procure unclaimed bodies for dissection was defeated.

The resolution to deduct per diem of members absent without good excuse fell into the orders of day.

Representative Halbert, in response to the House resolution requesting him to return and explain his alleged charges of bribery and corruption, denied that he had ever charged any member of either House with corruption.

A special says that a large number of corporations in Kentucky are subjecting themselves to indictment and a fine of from \$100 to \$1,000 by a failure to report the location of their place or places of business, and name or names of agents to the Secretary of State. There are about 10,000 corporations in the State, and only about 300 have complied with the law. One corporation has already been indicted, and many others will be, as the Commonwealth Attorneys get their percentage of the fines. The law went into effect April 5, and required them to report immediately.

Want Their Child Back.

Says the Cincinnati Commercial Gazette: "Judge Ferris is asked to set aside a recent entry of adoption, which gives Edith Aston, aged four years, to Amie Ostorn. The child was left on the steps of the Children's Home. It was placed in the charge of Amy Osborn, who was at the time a nurse in the home, and she became so much attached to it that she adopted it. The parents are Warren and Bessie Gardner, who live near Maysville, Ky. They claim that the adoption papers were not taken out until it was discovered that they wished to recover the child. They claim to be in good circumstances and proper persons to have the care of the child, while it is denied that its foster mother can provide for it properly. The threat is made that if necessary resort will be had to habeas corpus proceedings."

This case was mentioned last week, and since then it has been learned that the Gardners live near Rectortville.

Georgia Peaches.

The crop of peaches in Georgia promises to be unusually fine this year, both as to quality and quantity. They are now well advanced, and by June 10 it is expected that the first carload shipments will be made. From the Marshallville-Fort Valley districts alone there will be sent nearly 250 carloads, and probably fifty cars from around Griffin. Each carload sells for about \$1,100, of which nearly \$600 is the cost of growing, packing, freight and selling expenses, leaving on an average \$500 profit per car.

Up to All the Tricks.

Says the Louisville Courier-Journal: "A smart Cincinnati youth who went to Maysville to live is bitterly repenting the lack of discernment which led him contemptuously to characterize that place as a 'jay town.' The boys of the 'jay town,' who are pretty generally known to be up to about all the tricks, took the unsophisticated chap from Porkopolis out for an old-fashioned Kentucky snipe hunt, and the innocent held the bag and candle for several long hours waiting for the snipe to come, while the jays went home to bed."

Waived Examination.

The case of the Commonwealth against Wm. Jones and George Jones, the colored brothers charged with burglarizing Gaither's store at Marshall Station, was called before Squire Grant yesterday afternoon at 2 o'clock.

The accused waived examination, and were held to answer the charge at the approaching term of the Circuit Court. Their bail was fixed at \$500 each, in default of which they were recommitted to jail.

Turnpike Statements.

The financial report of the Orangeburg and North Fork Turnpike Company for past year shows the total receipts were \$120, all of which was expended.

The report of the Mt. Gilead and Lewisburg Company shows that the total receipts for the year amounted to \$170. This was expended in paying the indebtedness of the company.

Revenue Receipts.

Deputy Collector Wadsworth reports the following receipts at this point during May:

Spirits.....	\$28,672 20
Cigars.....	968 40
Tobacco.....	719 40
Total.....	\$30,354 00

What the "Grocery World" Says.

This is the day of printers' ink, and the prizes are for those who use it. Your traditions and prejudices may be to the contrary, but the world doesn't care a fig for them. The man who sits and waits for trade in these days gets left. Don't advertise, don't see that your city or your business is represented in your patronizing territory, and don't stand up manfully alongside of those who are fighting for your rights and interests, and there can be but one result—shriveling up. Good salesmen, first-class articles, gilt-edged credit are not enough. The trade is for the man who uses printers' ink.—Grocery World.

Tips For The Troubled.

If your faith is below par, read Paul.
If you are getting lazy, watch James.
If you are a policy man, read Daniel.
If there is no song in your heart, listen to David.
If you are just a little strong-headed, go to see Moses.
If you are getting weak-kneed, take a look at Elijah.
If you are getting sordid, spend a while with Isaiah.
If you are impatient, sit down quietly and have a talk with Job.
If you feel chilly, get the beloved disciple to put his arms around you.

Notice to Painters.

Specifications for painting and varnishing on and in building situated on Front street, between Market and Sutton streets, in the city of Maysville, Ky., being the property of John Ryan, Esq., and known as the "Arcade." Proposals for painting said building, inside and out, will be received upon the following specifications until Thursday, June 1, 1893:

1. The said building shall receive on the outside two coats of paint of good lead and oil, without benzine, the color, etc., thereof to be selected by the owner of said building, and the work to be done in workmanlike order.
2. The inside of said building, with the exception of the attic, to receive two coats of good paint of the same character and quality as the above. The attic to receive three coats of good white paint.
3. Stairway to be varnished with a good article of varnish and well put on. Before putting on any of the inside paint the old paint thereon is to be burned and sealed off, and the new applied. The front room down stairs is to have wainscoting grained in oak. This room is to have a good article of papering, to cost not less than 30 cents per bolt, and the hallway to receive the same character of paper. The rest of the papering for the entire house to cost not less than 10 cents per bolt, with exception of the attic, which will be painted as aforesaid.

Proposals for the foregoing work, stating terms and prices will be received until June 1st, 1893. Address JOHN RYAN, Maysville, Ky.

At last a medical work that tells the causes, describes the effects, points the remedy. This is scientifically the most valuable, artistically the most beautiful, medical book that has appeared for years; 96 pages, every page bearing a half-tone illustration in tints. Some of the subjects treated are Nervous Debility, Impotency, Sterility, Development, Varicocele, The Husband, Those intending Marriage, etc. Every man who would know the grand truths, the plain facts, the old secrets, and the new discoveries of medical science as applied to married life, who would atone for past follies and avoid future pitfalls, should write for this wonderful little book. It will be sent free, under seal. Address the publishers, Erie Medical Co., Buffalo, N. Y.

WORLD'S FAIR ON SUNDAY.

A Methodist Minister Uses Some Vigorous Language in His Reference to the Subject.

Rev. C. W. Barnes, of the Central M. E. Church, Springfield, O., in the course of a sermon last Sunday made use of the following vigorous language in regard to the opening of the World's Fair on Sunday: "The battles of the future shall be in the streets of the great cities, not in the fields as were the battles of our fathers. The military service of the future shall be urban. No one can tell how soon your valor may be needed. The city by the lake may soon require your attention. Does Chicago want another riot? Every preparation necessary to success seems to have been made. The Chicago press has been sufficiently inflammatory and vindictive to stir the lawless elements. The Board of Directors have proven themselves sufficiently infamous to inspire the boldness of every Haymarket anarchist who may remain in their city. The National Commissioners have been scarcely less successful in self-stultification and disgrace, and together they have given an example of disregard for law which would make Lingx and Engel turn in their graves for joy. When Chicago citizens at the top of the social and commercial world show themselves law-breakers and incapable of truth, what may be expected of that substratum whose daily food is the flame and fire of social revolution? In view of the Congressional action, the Sunday opening proclamation and the Haymarket bombs are filled with the same dynamite. Both are lawless. Let the names of the directory, a suggestive term, go into history with Lingx, Engel and Spies, their forerunners and first apostles. In order that no injustice be done the Haymarket ruffians by confusing the two and attributing to them their superior infamy, let the chapter of this late history be headed "The Anarchists of Avarice." Sunday opening at Chicago is no longer a question of religious or secular sanction of the Sabbath, but purely a question of the observance of National law."

MR. WILLIAM AUSTIN, of the BULLETIN office, is confined to his home by sickness, but expects to be out in a few days.

SNOW fell on June 1st and 4th, 1889, and on June 2nd, 1888, it was too cold to seine in the North Fork, said a gentleman this morning in a talk on the weather.

THE thirteen-year-old daughter of Jas. Davis, of Greenup, was burned to death Saturday. She went to sleep near a pile of burning logs, and her clothing caught fire.

THE floor of the kitchen at Mr. John N. Thomas' residence caught fire this morning, and occasioned the alarm shortly after 8 o'clock. The blaze was extinguished before any damage was done.

Every county is represented and every sample contains the name of the person who raised it.

THE celebrated law suit over the Bean fortune in Fanning County, Texas, will be tried soon at Dennison. Tom Bean, a millionaire, died, leaving no will and no information as to his people. When the heirs were sought they sprung up in France, England and most of the States of the Union. No jury, lawyer or Judge in Fanning County could try the case, as all claimed the right to a share of the estate. The property is in money and realty most all over Texas.

River News.

The fog yesterday morning delayed most of the packets.

As usual, the Sherley led the Stanley yesterday, but the latter was getting there all the same.

The towboat Samuel Clark recently made the run from Pittsburg to Louisville and back in six days and seventeen hours, and handled 300,000 bushels of coal on the downward trip.

Following shows the May coal shipments from Pittsburg: Cincinnati, 5,425,000 bushels; Louisville, 9,837,000 bushels; total, 14,812,000 bushels. Year's shipment to date: Cincinnati, 10,838,000 bushels; Louisville, 25,140,000 bushels.

Says the Felicity (O.) News: "The Stanley with all her backing of the needful does not appear to be 'running out' the Stanley to any perceptible extent. About July 15th, look for the steamers of the new company opposed to the White Collar Line. If fly time doesn't intervene, they will then be on the track."

PRIZE FIGHT IN LONDON.

Jim Hall Knocks Out Frank Slavin in Seven Rounds.

LONDON, May 30.—Jim Hall met Frank Slavin at the National Sporting club last night for \$2,500 a side and a purse of \$8,500 and knocked him out in the seventh round. The fight was a disappointment to the spectators. Slavin was the favorite in the betting up to the opening of the first round, but from the beginning he made a poor showing. He was completely outgeneraled at every point by Hall and was unable to offer even enough resistance to make the contest exciting.

When time was called Slavin's face wore a peculiar, dazed expression. He lurched heavily twice as he left his corner and was generally unsteady in his gait. After sparring for a few seconds he walked up to Hall and was received with a staggering right-hander, which almost felled him. Throughout the round he never closed his glove, and when time was called went to his corner amid the hissing and groaning of the spectators.

In the second round he showed no improvement. He lurched about stupidly, giving Hall several chances to hit him as he pleased. Hall did not take advantage of his opportunities and the round closed without any heavy work on either side.

The third round opened with some light sparring. In the middle of the round Hall landed both right and left on his opponent's head, then gave him a stinger on the jaw and stood away. The men then fooled about the ring missing repeatedly when they came to close quarters. At the end of the round the referee warned them that if they did not fight there would be no purse for them. The warning had little effect.

The fourth round was a scrambling one. Not a single telling blow was struck, and the fooling of the previous round was repeated until the spectators hissed and jeered.

The fifth round was somewhat better. It ended with Slavin going down from a right-hander on the jaw.

Nothing was accomplished by either of the men in the sixth round.

The seventh round had hardly opened before Hall felled Slavin with his left. Slavin was soon up, but hearing somebody call time he turned towards his corner. Hall instantly shot out his right. The blow landed squarely on Slavin's jaw and sent him down for good.

The spectators hooted Slavin as he was carried to his corner. Disappointment and dissatisfaction with the fight are generally expressed.

Slavin was seconded by Jack Start and Jim Revan, and was attended also by his brother Jack. Charley Mitchell and Sam Blake, ex-champion lightweight, seconded Hall. Paser umpired for Slavin and Lord Lonsdale for Hall.

Cincinnati Tobacco Market.

Furnished by the Cincinnati Leaf Tobacco Warehouse Company.

With the exception of slight variations from day to day during the past week, the market, in general, continued about as strong as we quoted it in our last report. The demand has certainly improved, but did not appear strong enough to remain steady in the presence of increased offerings.

Sales were larger, but not at all heavy, and reactions were proportionately light; in fact there were some very satisfactory sales made during the week, and, although there was some irregularity in the bidding, the market seemed to us to be gaining in strength.

The proportion of low medium grades making up our sales at present is rather remarkable. On Wednesday, for instance, in an offering of 665 hds, 490 hds ranged in price between \$1 75 and \$10, and 165 hds from \$10 to \$15, and very few reaching the outside figure.

Old stock has almost disappeared from the breaks, 30 or 40 hds daily appearing to be the extent of the offerings, and the bidding on the same was indifferent. With the small quantities of fine tobacco which the manufacturers want at present, the future for these goods don't look very bright.

The offerings during the week were 1,136 hds; receipts, 317 hds; actual sales, 519 hds; receipts, 563 hds.

Sales for this week will be as follows: First, Cincinnati; second, Walker; third, Morris; fourth, Miami; fifth, Globe; seventh, Bodmann.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.
